

Simplified Definitions of Income and Resources

State agencies have the option to exclude additional types of income and resources by aligning food stamp policy with TANF or Medicaid policy. Any income not counted under Section 1931 of Medicaid or TANF can be excluded with some exceptions. The exceptions are wages, salaries, benefits from major assistance programs, regular payments from a government source, worker's compensation, child support payments, and other types determined countable to insure fairness in eligibility determinations. The same option exists for the treatment of resources. The ones that cannot be excluded when using this particular option are cash, licensed vehicles, and readily available amounts in financial institutions--plus anything determined essential to count by FNS for basic fairness.
