

“How To” use the Universal Interface when
implementing EBT
WIC EBT User Group Meeting

Agenda

1. UI Compliant Smart Card EBT Card Issuer Processor (CIP) Perspective of Integration with a UI Compliant MIS System
2. Program Once Use Many Times

Smart Card EBT

- UI interfaces create straightforward integration
- Processing handled in a batch file environment
- 6 functions of file interfaces

UI Functional Areas

1. **WIC EBA Account Maintenance**
2. **WIC EBA Benefit Maintenance**
3. **Cardholder / Card Maintenance**
4. **WIC Vendor Maintenance**
5. **WIC Food Maintenance**
6. **WIC Benefit Data Reconciliation**
7. Local Agency Maintenance
8. Clinic Maintenance
9. **Financial Settlement**

MIS is the originator of function.

UI Functional Areas

1. WIC EBA Account Maintenance
2. **WIC EBA Benefit Maintenance**
3. Cardholder / Card Maintenance
4. WIC Vendor Maintenance
5. WIC Food Maintenance
6. WIC Benefit Data Reconciliation
7. Local Agency Maintenance
8. Clinic Maintenance
9. **Financial Settlement**

MIS is the originator of function.
