“How to” use the UI

- Compliance
 - Terminology
 - Functions / Data covered (including sharing)
 - Operational (Type)
- Bottom Line: The WIC MIS system and WIC EBT system each have what is needed for a complete and solid client solution.

Each System has what it needs

- Shared Support Data
 - ❖ To WIC EBT: Clinic, Vendor, Vendor Adjustment
 - ❖ From WIC EBT: ARF, Claim Error, ACH ARF XREF
 - ❖ With Others: ACH OR, Remote Benefits, HCL, APL
- WIC EBT – Settlement
- WIC MIS – Reconciliation (Food and Dollars)
