# Help Us Feed More Kids

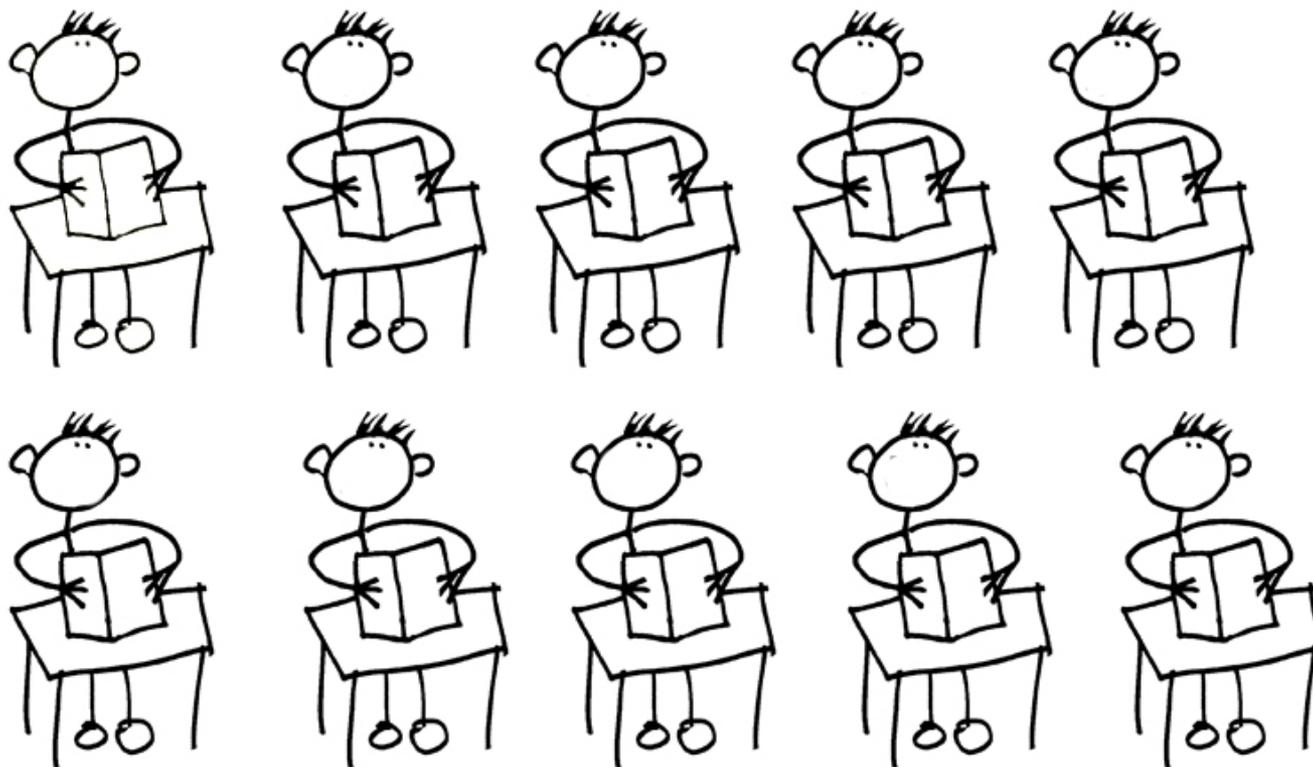

Approximately 21 million children access free and reduced price meals during the school year, but **only 2.3 million children receive meals through USDA's summer feeding programs.**

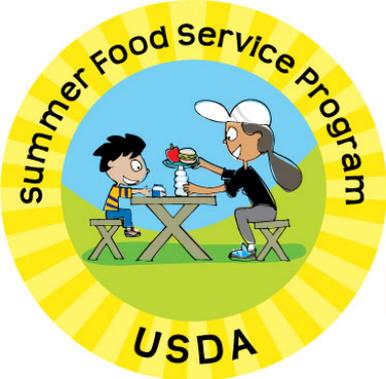

That means there are lots of children that are going hungry in the summer.

Only 1 in 10 kids who are eligible for free summer meals get those meals

The screenshot shows a web browser window displaying the "2010 FRAC Summer Food Mapper". The main feature is a map of the United States where states are color-coded by poverty levels. A legend on the right, titled "2010 Census Map Layers", lists categories: "State (Low)", "% 185% Poverty Under 19", and "Free/Reduced Meal Eligible". The legend uses a color scale from light yellow (0% to 5%) to dark purple (80% to 100%). The website interface includes a search bar with fields for "Street Address", "Place", "State", and "ZIP Code", and a "Find" button. There are also navigation controls like "FIND", "ZOOM TO", "ZOOM IN", "ZOOM OUT", and "PAN".
