

PROFILE OF SNAP HOUSEHOLDS

Oregon Congressional District 3

The Supplemental Nutrition Assistance Program (SNAP) is the cornerstone of the Nation’s nutrition assistance safety net. Benefits are available to most people who meet the financial and nonfinancial requirements, and the program serves a broad spectrum of low income people. In Fiscal Year 2015, SNAP provided about \$1.15 billion dollars in food benefits to a monthly average of 779,749 people in Oregon. The program served 100 percent of those eligible for benefits in Oregon in 2014. SNAP also has an economic multiplier effect; every dollar in new SNAP benefits results in \$1.80 in total economic activity.

The American Community Survey provides a snapshot of SNAP participants in 2015 for each Congressional District.¹ More detailed information for the Nation and each State is presented in *Characteristics of Supplemental Nutrition Assistance Program Households: Fiscal Year 2015*, available at <http://www.fns.usda.gov/ops/research-and-analysis>.

¹ The ACS employs yearly sampling to produce statistical estimates. The descriptive statistics presented here are, therefore, subject to year-on-year measurement variations due to margins of error in the estimates.

² The ACS bases poverty status on annual household income; SNAP eligibility is based on monthly income. Due to this difference in reference periods, poverty status in the ACS may differ from poverty status at the time of SNAP certification.
