Dear Friends at US Department of Agriculture,

I am writing to tell you that I support the proposal to change the WIC foods. I look forward to being able to provide fruits, vegetables and whole grain cereals for my family.

Additional Comments: I really believe that this would help out a lot of children. Many families can't afford all the necessary baby foods & fruits & veges their children need. Everyone needs their 5 a day. I really think this is a great idea. And God bless you all for helping the ones in need of this program, including myself w/ my 3 children.

Thank you for reading my comments.

Additional Comments:

this is a necessary & exciting change in the WIC food program. Fresh fruits & vegetables are far superior to juice (which lacks fiber & many of the nutrients are depleted when processed into juice), and less dairy, to bring more produce is a wonderful way to increase low fat, low-calorie nutritious food in the program!
